

Insights to the Human Resources (HR) department proposal

Proprietary +
Confidential

Objective

Develop a predictive model that can anticipate whether an employee will leave the company based on various factors such as job title, department, number of projects, average monthly hours and potentially other relevant data points.

Planning and Analyzing stages

Milestone	Tasks	Outcome/Deliverables	Estimated Time
Milestone 1	<ul style="list-style-type: none">Outline project workflowCollect data from various HR departmentsIdentify software/hardware needs	<ul style="list-style-type: none">Stakeholders updated	2–3 weeks
Milestone 2	<ul style="list-style-type: none">Clean, convert, and format data	<ul style="list-style-type: none">Data ready for modelingStakeholders updated	2–3 weeks

Constructing and Executing stages
